What We Do

We're not just a photography studio - we see ourselves as storytellers. With years of experience in the industry, we understand the ins and outs of commercial photography, styling, and art direction. We've worked on a variety of projects, from creating visual content for books, restaurants, cafes, and more, for small and big businesses.

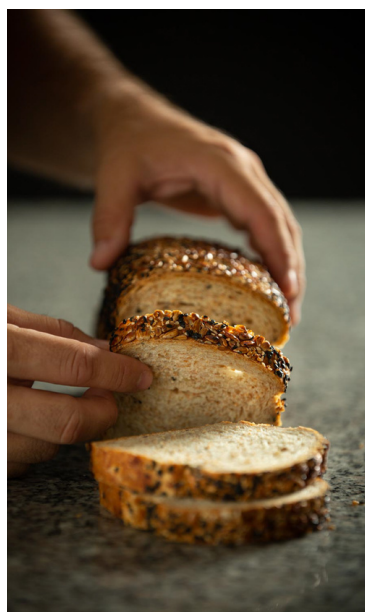

No matter what the project entails, we always bring our unique perspective and artistic eye to create stunning images that tell your story in the most impactful possible way.

Our Clients

We've had the pleasure of working with some amazing clients, both national and international, over the past few years. In many cases, our initial projects with them have led to long and valued relationships that continue to this day. We couldn't be more grateful for each and every one of them!!

How we do it?

We document the process with natural atmospheres, unique color palettes and a visual unity in all images; images that are also works of art.

Who We Are

We combine our passion for photography with our love for food and the finer things in life.

We are two world travelers who have spent over 20 years immersed in all varieties of the fantastic world of photography -- including Editorial, Fashion, Portraiture, Architecture, and Commercial. There has not been a day when a camera was out of our reach.

After many successful projects, we joined forces once again to create "Black Shore Studios" -- a studio that combines our passion for travel, food, and portrait photography to tell beautiful stories through the lens.

Now we are ready to tell YOURS.
